

# You will have the best homecare

Your care with **Faithful Companions** will begin with a free, no obligation assessment and evaluation in your own home. We will meet with you and your family to personalize a care plan that will best meet your needs. We then select a caregiver that has the personality and skills to provide the best care for you. The day we start care, we personally introduce the caregiver and train them at your home on how to best serve you.

## What others say about our service

"Your staff all went consistently above and beyond in not only meeting Mom's needs, but also in caring for us as we spent our final days with Mom. They became way more than paid caregivers. They were members of the family. Their faith, love and support were apparent at all times."

"Thanks Diana, you and your staff are fabulous! My mom has really felt comfortable with the caregivers from your agency which is in complete contrast to how she has felt with other agencies that we have tried to use in the past. Thank you again!"

*Whether you choose to use our services or another care option, we pray that you and your loved one will be cared for and trust that God will provide for your needs.*
